- Tests only require a few hairs (3 / 4 strands) from the head or any other area of the body.
- Ideally, sample should include the hair root, however we understand it is not always possible, so if cutting the hair, please ensure you cut as close to the root as possible.
- Hair dye or treatments do not affect the testing.
- Once the hair sample is collected, place the strands into a small sealable bag ensuring the hair remains dry and secure during transit.
- Do not send hair samples in metal foil or other metallic packaging.
- Place hair sample in a secure envelope or postage wallet and post to one of the addresses, below.
- Please ensure the correct amount of postage is paid, as incorrect postage can cause delays to the processing time.
- Please ensure you have completed all details correctly, especially your email address as this is where your results will be sent to.
